

“Thyroid hormone: a key player in adipose tissue health and disease”

We proudly present the speaker of our LOCOTACT Lecture in **June 2023**:

The research group of **Dr. Kerstin Krause** is interested in hormonal regulators of adipose tissue plasticity. Within the Collaborative Research Center 1052 “Obesity Mechanisms” they focus on the adipose depot-specific activation of adipocyte precursors in response to thyroid hormone signaling. Aiming for the identification of the mechanisms by which thyroid hormones regulate adipose tissue plasticity and the improvement of obesity treatment approaches.

Date: 22.06.2023

“Thyroid hormone: a key player in adipose tissue health and disease”

Dr. Kerstin Krause

Department of Internal
Medicine and Endocrinology
at Medical Department III,
Leipzig University

Time: 5.00 pm (CET)

Place: Zoom

All guests are cordially invited to join the LOCOTACT Lectures!

The online lecture takes place via Zoom. If you want to register, please contact the LOCOTACT central office locotact@uk-essen.de.
