

Joint Online Event Series 2023: Equity and Female Opportunities in Academia

Empowerment coaching: Self-confidence & visibility of female scientists in academic networks.

Impulse lecture with coaching

Dr. Silke Oehrlein-Karpi

K.T.E Coaching

5 September 2023, 3:30 – 5:00 pm

The talk will cover the pathway to academic independence in Germany and it will present data on the status of female scientists. It will highlight cultural and structural phenomena contributing to gender disparity, including power dynamics and visibility traps. The talk will propose hands-on solutions, such as understanding success factors, mentoring impact, gender competence, and assertive communication, to support women in building successful scientific careers. It will emphasise the significance of realistic self-concepts, self-confidence, and goal-oriented career planning.

The lecture is going to be online and in English.

The coaching is aimed at all TRR289 and CRC/TR296 members at all career levels.
