

Cardioprotection in acute myocardial infarction - *per aspera ad astra*

We proudly present the speaker of our LOCOTACT Lecture in June 2022:

Professor Tienush Rassaf investigates a broad range of cardiovascular pathologies and mechanisms of cardiotoxicity. He has analysed cardioprotective signaling cascades in acute myocardial infarction and ischemia/reperfusion injury, with a strong translational approach and focus on drug development. In the last years he has tremendously contributed to the field of cardio-oncology and investigated mechanisms of cardiotoxicity and cardioprotection.
